

Unique care for unique individuals.

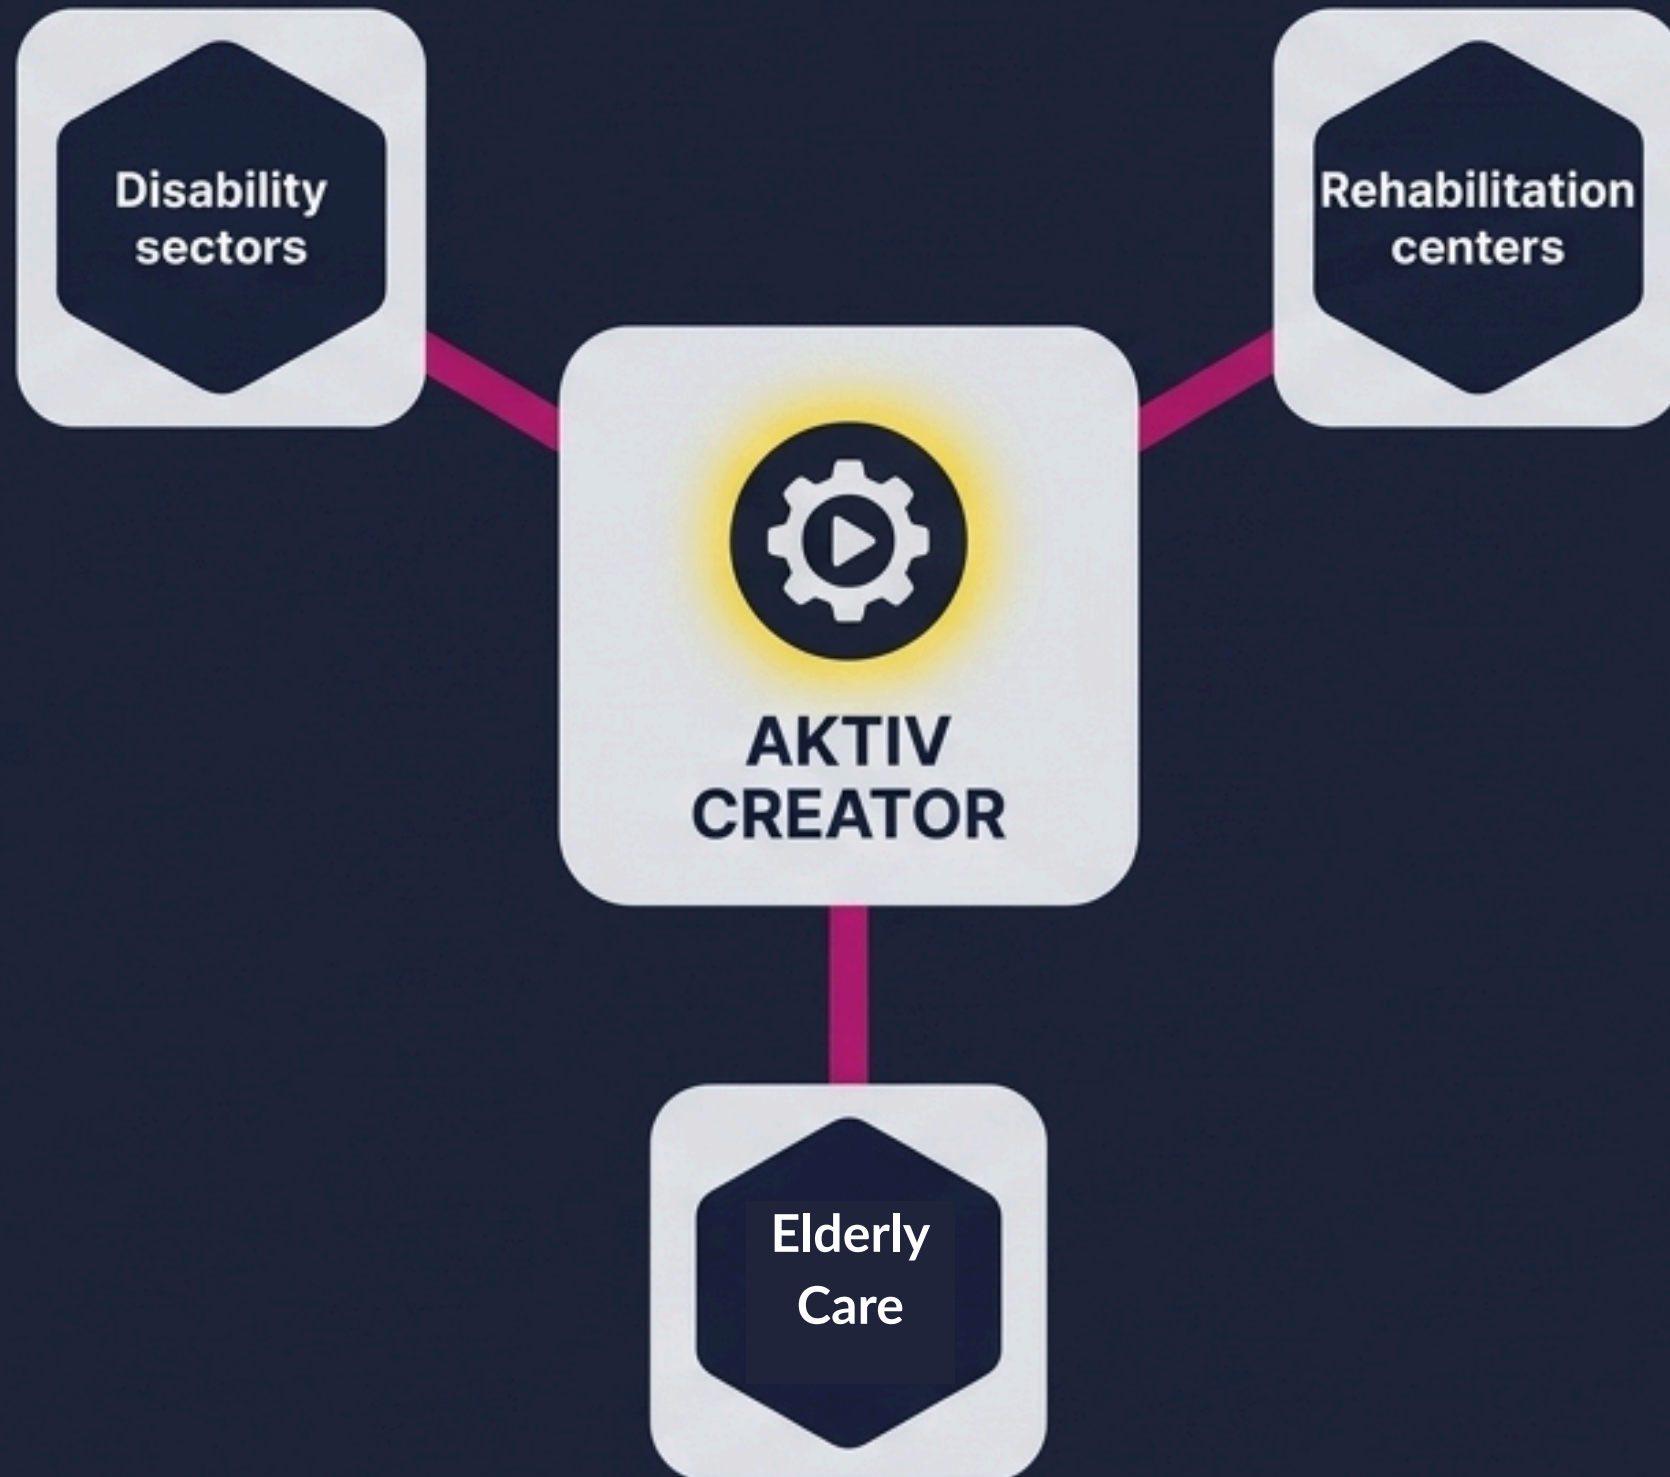

Every supported individual has a **specific history**, capabilities, and needs.

Their therapeutic activities must reflect this singularity.

The therapeutic compromise is no longer inevitable.

Autonomy without technical complexity.

The promise:

To offer therapists a platform capable of creating, personalizing, and evolving their activities with complete autonomy.

The design:

Conceived from its origin for healthcare, placing ease of use at the absolute core of its ergonomics.

Much more than a simple collection of games.

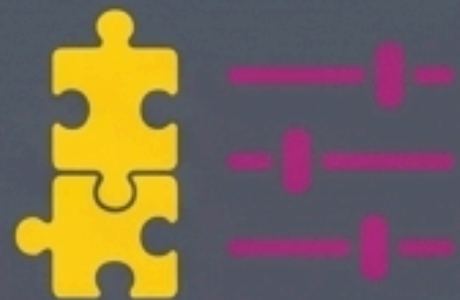

Create

Interactive activities generated in just a few minutes.

Personalize

Total integration of your own media (images, sounds, videos, text).

Adapt

Precise adjustment to the therapeutic objectives of each patient.

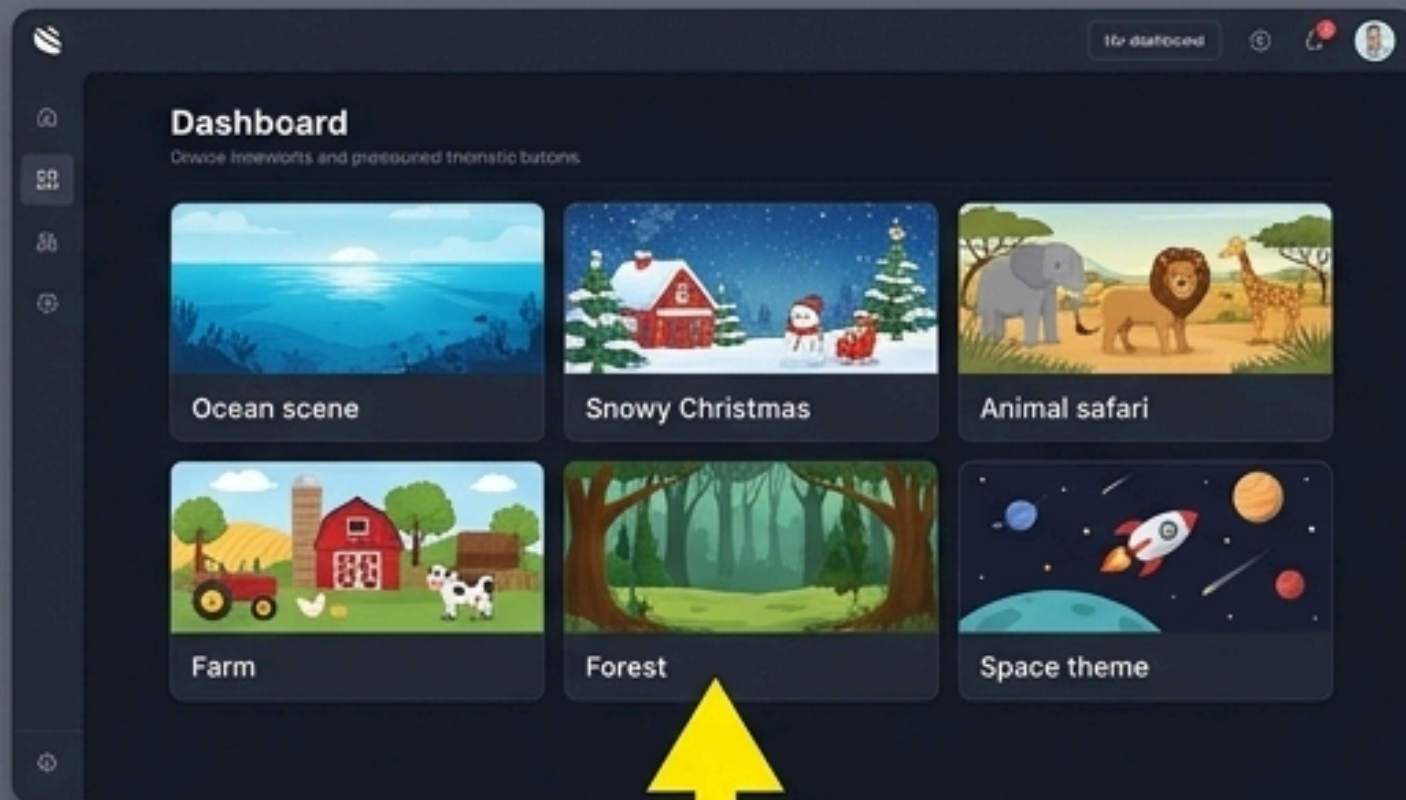

Enrich

Progressive building of a library that expands over time.

The architecture of the therapeutic game.

Level 1: The Universe

Immediate thematic choice

Level 2: The Activity Family

Quiz,
Memory,
Puzzle,
Associations,
Sorting,
Odd One Out,
Coloring,
Music

**Level 3: The
Difficulty Level**
(Cognitive adaptation)

1. Freedom of Creation

Micro-Matrix diagnostic

Yesterday:

- Static libraries
- Complex technical tools
- Passive patient

Today:

- Creation in a few minutes
- Zero code required
- Engaged patient

2. Meaningful Media

From generic to intimate

Don't be limited by standardized games anymore. Instantly integrate your own media (family photos, teams, familiar places, everyday objects, sounds, and videos) to create a positive cognitive and emotional impact.

Your Therapeutic Heritage

3. The Therapeutic Slider

Match the cognitive abilities of each resident.

Each activity (Quiz, Memory, Puzzle, Sorting...) stretches across 3 instantaneous levels.

The Adaptability Slider

A granular adaptation to cognitive abilities

A multitude of modalities for each objective.

Memory

(Executive functions and recall)

Sorting

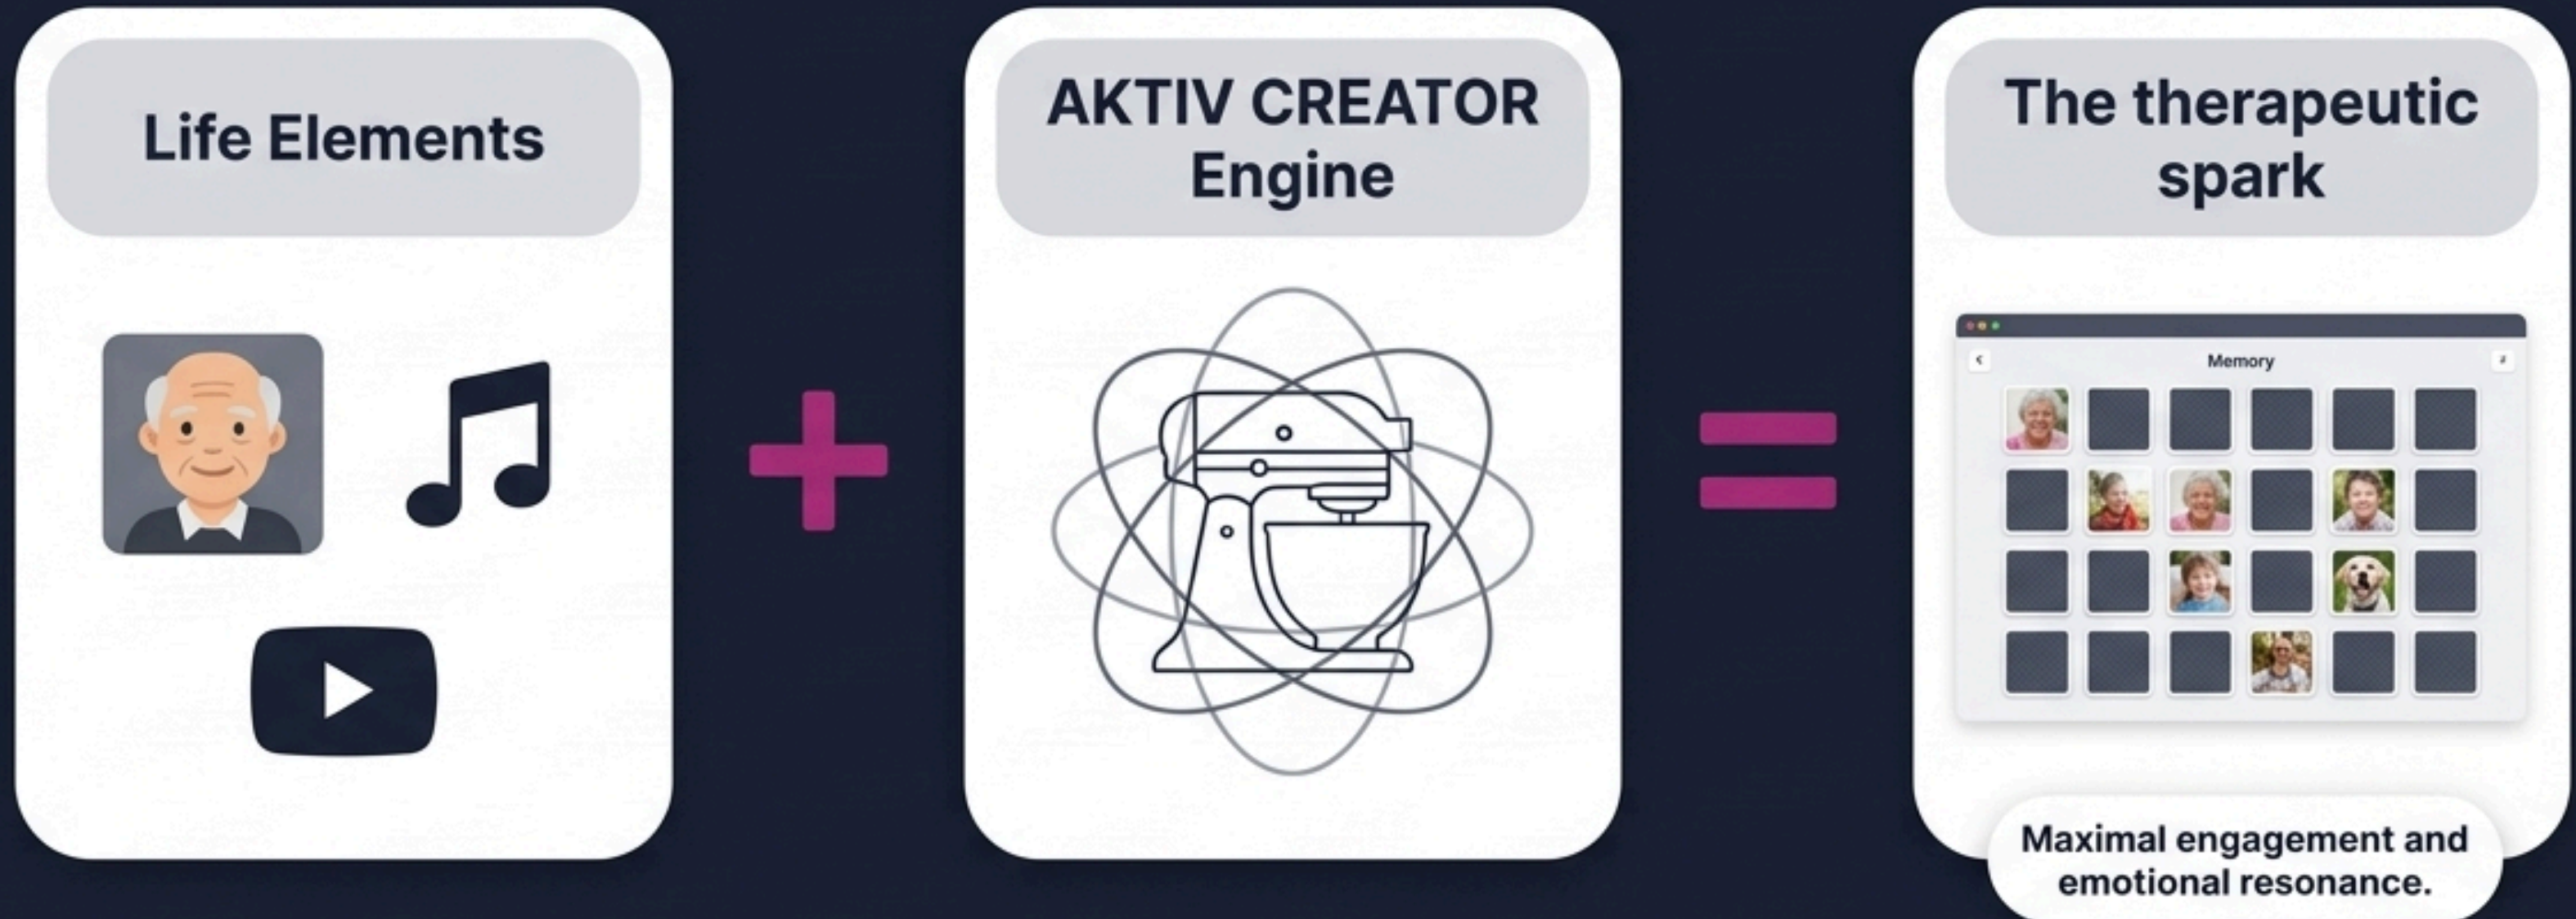

(Logic and order)

Word Search

(Language and visual attention)

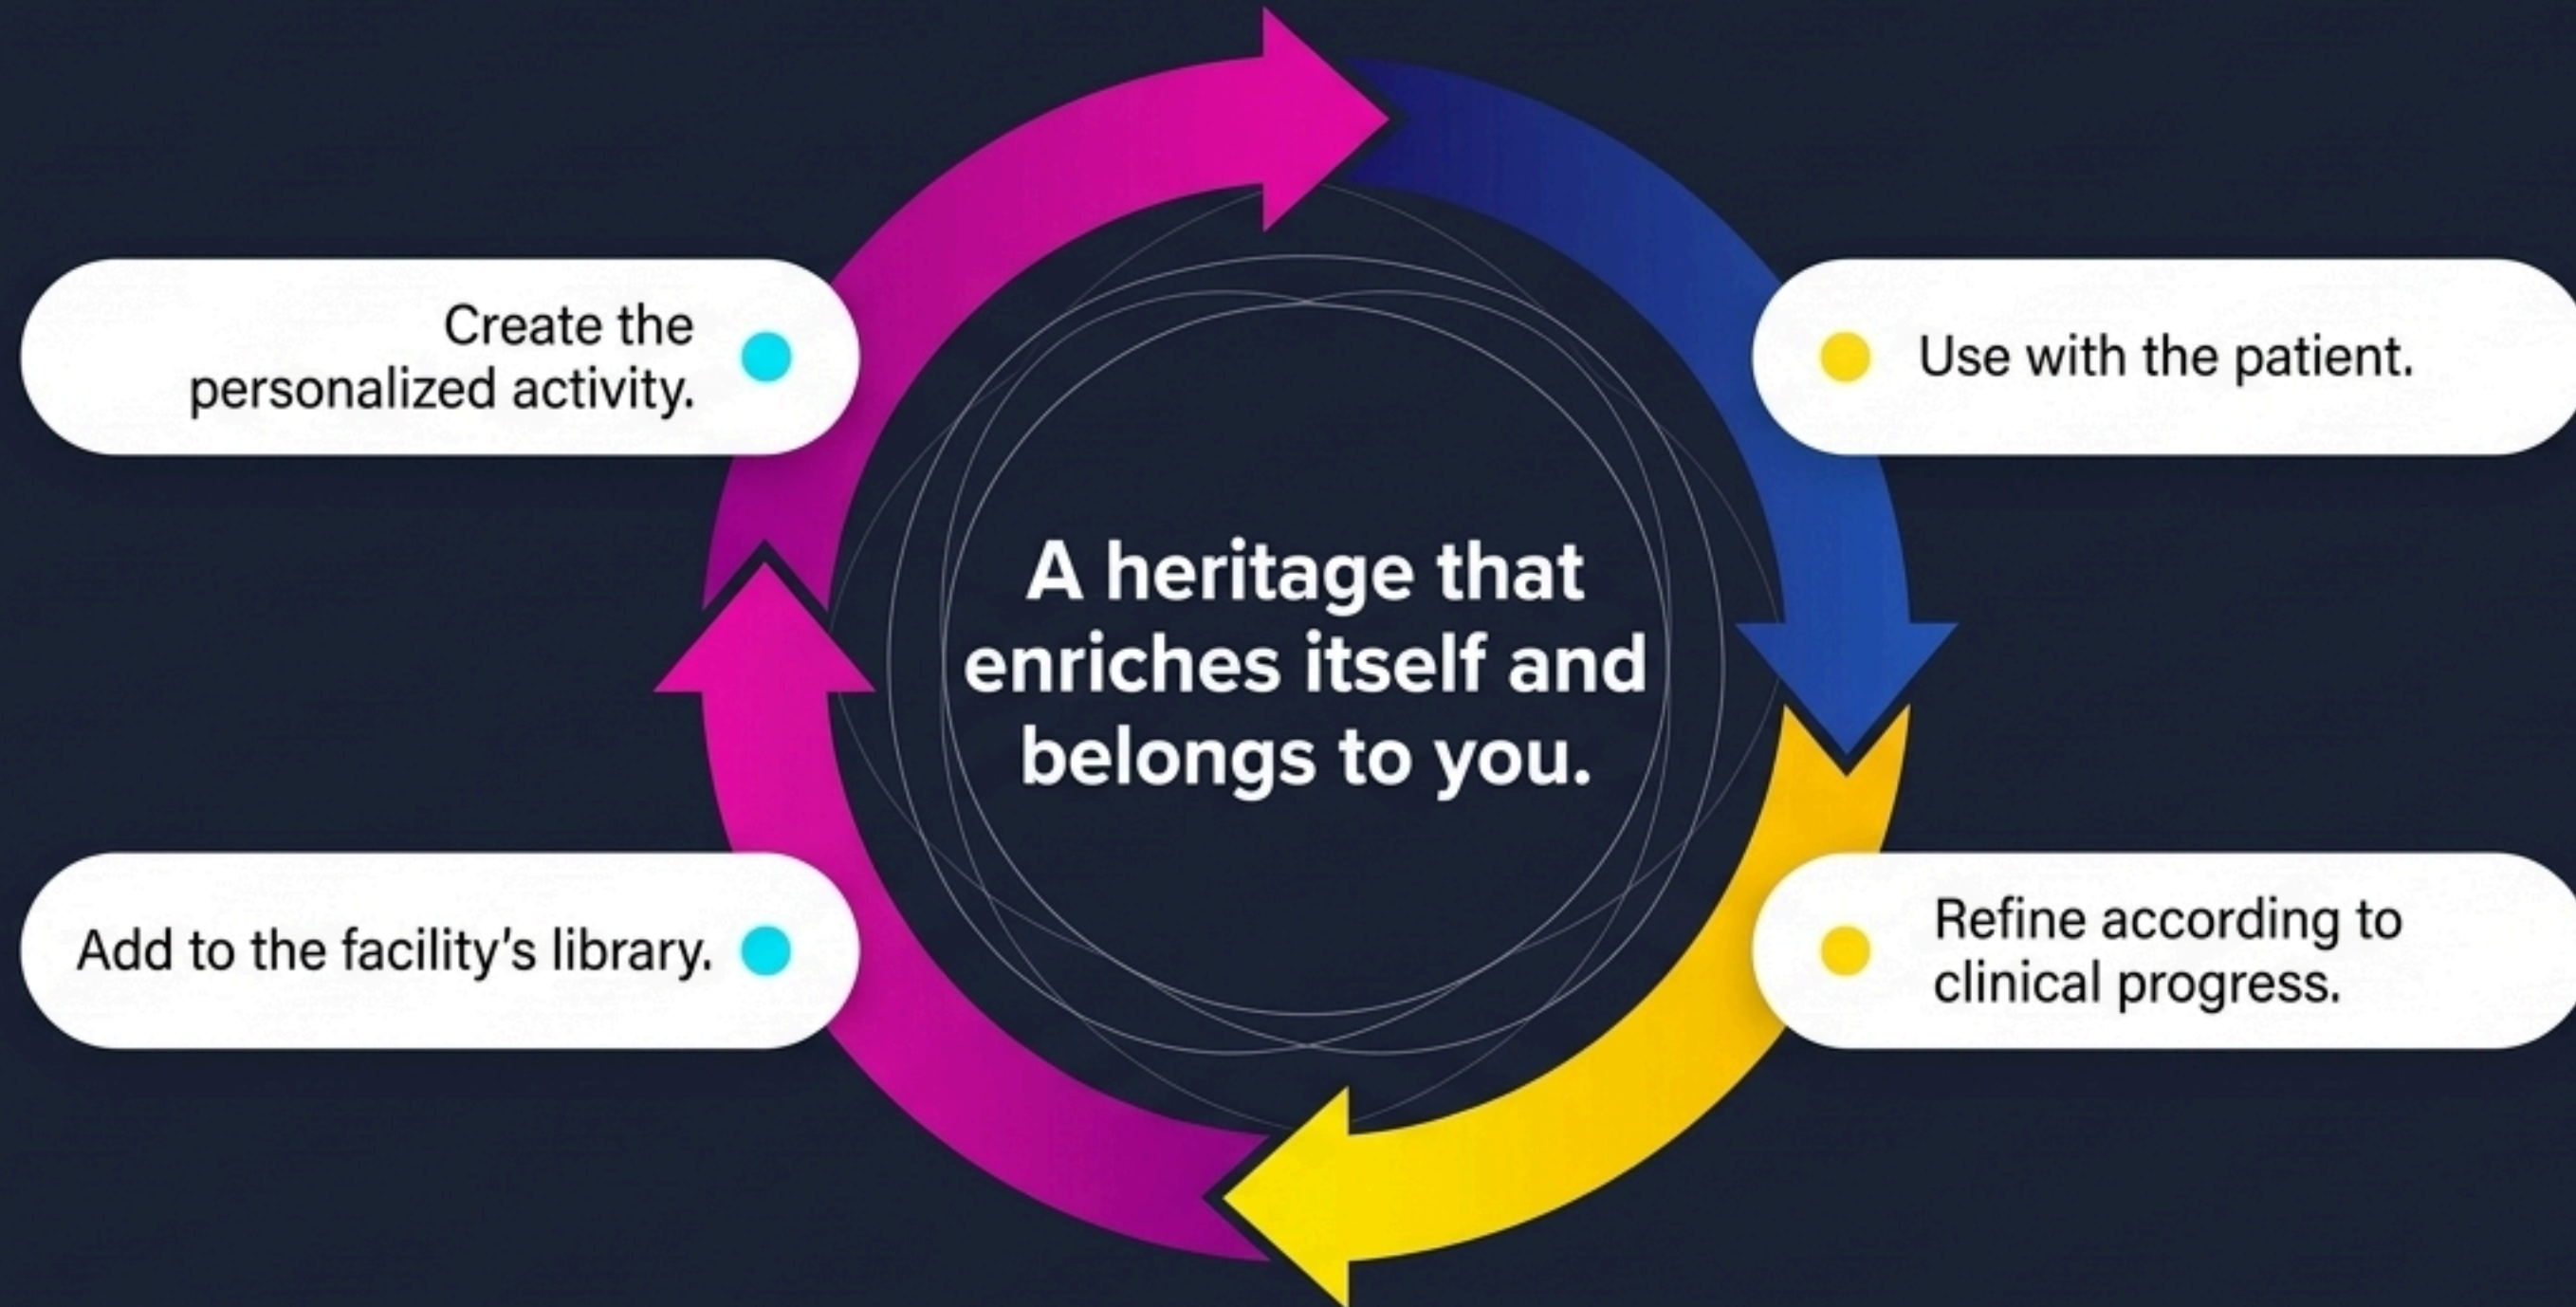

The equation of meaningful activity.

Activities that have a true and immediate meaning for each supported individual.

Building a digital heritage specific to your facility

Over time, your facility no longer rents a generic service; it builds and capitalizes on its own documented clinical expertise.

The MON LUMI Médical promise.

Technology should never complicate the work of professionals. On the contrary, it must offer them more freedom, creativity, and autonomy.

Our founding principle that will guide all our evolutions:
Any new feature must remain simple, intuitive, and immediately useful.

Transform your therapeutic sessions today.

1

Discovery

Schedule a personalized demonstration for your team.

2

Creation

Design your first custom activity in a few minutes.

3

Deployment

Start building your facility's digital heritage.

Contact the MON LUMI Médical team to integrate AKTIV CREATOR into your practice.
