# AKTIV CREATOR™

CREATE TODAY THE ACTIVITIES OF TOMORROW

monlumi healthcare

# Because every person is unique, their activities should be too.

AKTIV CREATOR enables professionals to create and personalize interactive activities. **independently, simply, and without any technical complexity.**

### AUTONOMY

Create your activities easily

### PERSONALIZATION

Photos, sounds and meaningful content

### ADAPTABILITY

Activities that evolve with the person

# A rich variety of themes to spark everyone's interest.

Explore our themed worlds and discover a wide range of activities, adaptable to every profile.

or even create your own theme, based on your facility, region or residents!

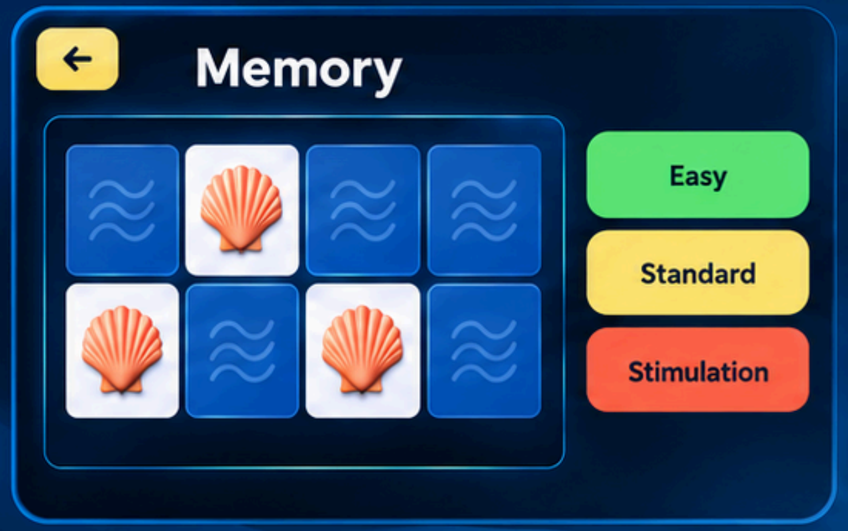

## A wide variety of activities

- Quiz
- Memory
- Puzzle
- Matching
- Odd one out
- Sorting
- Word search
- Coloring
- Music
- Relaxation

# Customizable activities tailored to your goals.

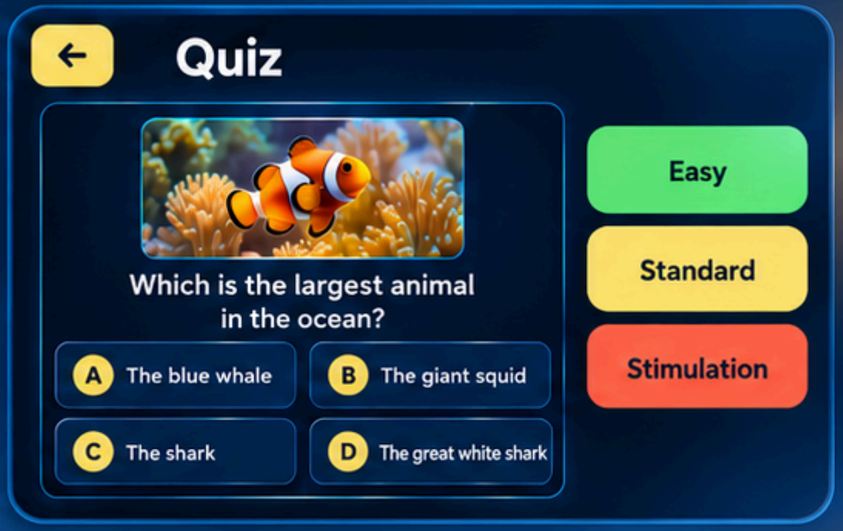

monlumi healthcare

Each game offers 3 difficulty levels, with or without a timer,
and can be enriched with your own content (photos., sounds, videos, text, etc.).

**With or without a timer**

Adapt the playing time to everyone's needs.

**Included pack content or your own content**

Use the included activities or enrich them with your own photos, sounds, videos and text.

**Restart or move to the next level**

Restart a game or increase the difficulty to support progress at each person's pace.

# AKTIV CREATOR™

CREATE TODAY
THE ACTIVITIES OF TOMORROW

mon lumi healthcare

# You create. You adapt. They take part.

The AKTIV CREATOR back office lets you create, duplicate, modify, enrich and organize activities without technical skills.

Personal content for stronger emotional and cognitive resonance.

## Create and duplicate

Create your own activities in minutes and duplicate them easily to save time.

## Import photos, sounds and videos

Integrate your own media for unique and meaningful activities.

## Manage themes, activities and levels

Organize your content by themes, create several difficulty levels and structure your library.

## Grow your library

Modify, enrich and evolve your activities according to needs and field feedback.
